## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 09 July 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Juergen in view of Wipasuramonton et al.

Juergen teaches an upper body side protection device for an occupant of a vehicle which is equipped with a vehicle seat including a seat surface and a back rest wherein the device comprised a side gas bag extending to the side of the upper body and having a outer portion 23 which surrounds a central region 13 of the gas bag substantially as claimed except for the gas bag being ring shaped and having the particular dimensions as claimed.

The patent to Wipasuramonton et al teaches a substantially ring shaped gas bag 90 wherein the outer portion surrounds a non-inflatable central region to be old and well

known in the art. It would have been obvious to one of ordinary skill in the art to modify the Juergen device such that the outer portion of the gas bag completely surrounded the central section as taught to be old by Wipasuramonton thereby providing the obvious advantage of a more stable gas bag.

It would have been obvious to one of ordinary skill in the art to form the Juergen device to the dimensions as recited in claims 6-7 since the Juergen device is to protect the shoulder and pelvic area and not to contact the thoracic area, which is the same area covered by the instant invention.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Sinnhuber, Eyrainer, Nakamura et al, Sasaki et al, Yamaji et al and Hill all teach devices similar to that of the instant invention.
